**ALL OSS Sleepers are designed to:**

- AS3600/2009
- AS4100
- AS1170.0.2002
- AS11170.1.2002

---

All Concrete Sleepers are 40 MPa which complies with AS3600/2009

**CONCRETE SLEEPERS ENGINEERING SPECIFICATIONS:**

- Sleepers are engineered for the use with retaining walls which satisfy the following conditions/limitations:
  - Back wall is free from drainage consisting of sand and or gravel
  - All sub interface water is drained by mean of an agriculture drain or other suitable method
  - Sleepers are handle with care during transportation and erection on site.
  - No compaction of back fill is allowed within a distance 75% of the wall height.
  - Walla over 1 meter will require council permission and engineers advice
